

SUN SHING

COMPANY PROFILE

/ Plastic Injection

/ Molding

/ Assembling

/ Spray Printing

上興塑膠

上興塑膠實業股份有限公司
SUN SHING PLASTIC ENTERPRISE CO.

➤ About Us

Sun-Shing founded in 1989, our vision is to create a better world the mission is to make product inspiration come true with our four core values integrity, execution, innovation, and partnerships.

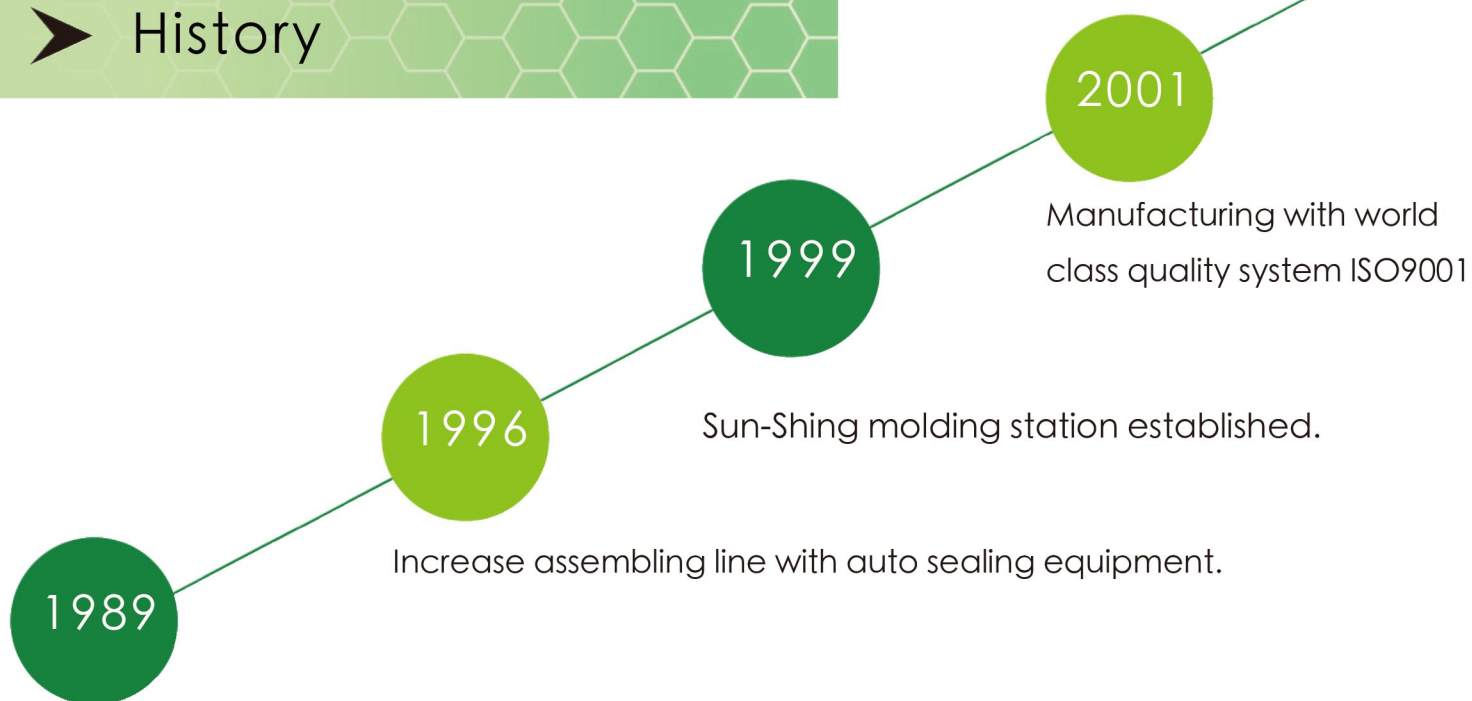

We are ISO 9001 certified, from molding, plastic injection, assembling to delivery we serve with high quality and excellent efficiency.

Sun-Shing can work with plastic materials such as PC, PP, ABS, PA, PMMA, TPR, TPV, PLA, and in order to serve our customer needs, we has invested in ultra-high temperature equipment to work with Engineering plastic materials such as PEEK, PFA, PEI, PPS, ETFE, PVDF, PES, and PSU.

We have possess extensive experience in making products on fields of Semiconductors, Wafers, Auto Parts, Computers, Electrical Appliances, Construction, Chemical Accessories and Sporting Goods.

We hope to establish close win-win relationship with you, let's grow and create profits together. Trust Sun-Shing to be your best business partner.

➤ History

Establishment of Sun-Shing founded to provide molding development and plastic injection solutions.

Create a better world

Mission

Make product inspiration come true

2004

Increase Ultra-High temperature equipment for special material molding PEEK, PFA, PEI, PPS, ETFE, PVDF, PES, and PSU.

2010

Become Tung King Electrical cooperate manufacturer.

2016

Become EPISTAR cooperate manufacturer.

➤ Core Value

Integrity

Sun-Shing creates our principles, beliefs and values base on integrity.

Innovation

Sun-Shing is pursuing comprehensive innovations including manufacturing, technology, management, marketing, and strategy.

Execution

Sun-Shing uses execution this frim ladder to achieve goals and strategic intentions.

Partnerships

Sun-Shing pursues long-term, stable partnerships with our customers and employees to grow together and create better future.

➤ Company Facilities and Equipment

- We have 13 injection molding machines the largest machine is 500T, all machines are equipped with auto mechanical arm device.
- High and low temperature control machine for plastic mold is available to heat and cool the mold properly according to the forming requirements.
- With 30 temperature controllers, can precisely control the mold s temperature in multi-point.
- Embedded metal heating plate can heat up to 300° C to reduce insert molding product over shrinkage.
- Assembly line and Auto sealing equipment.

Plastic Injection Molding Machine

| Machine specifications & Mold holding size | Number of machines | Cylinder capacity |
|--|--------------------|-------------------|
| 500T (760 x 670) | 2 sets | 1.7 kg |
| 320T (650 x 550) | 1 set | 1 kg |
| 250T (550 x 550) | 1 set | 700 g |
| 200T (500 x 500) | 2 sets | 320 g |
| 125T (420 x 420) | 2 sets | 250 g |
| 120T (400 x 400) | 1 set | 200 g |
| 80T (370 x 290) | 3 sets | 150 g |
| 60T (320 x 250) | 1 set | 120 g |
